# Highlights

## Coloured Sunrise Simulation

Inspired by nature's sunrise, light gradually increases within 30 minutes from soft morning red through orange until your room is filled with bright yellow light. This process of changing an increasing light stimulates your body to wake up naturally. By the time light has filled the room your chosen natural sound completes the wake-up experience, leaving you ready for the day ahead.

## 5 natural sounds

At your set wake-up time, natural sound will play to complete the wake-up experience and ensure you are awake. The selected sound gradually increases in volume to your selected level within one and a half minutes. There are five natural sounds you can choose from: Bird Song, Birds in the forest, Zen Garden, Gentle piano and Seaside Sounds.

## FM Radio

Listen to your favourite radio show while you are waking up

## Intuitive Dimming Display

The brightness of the display adjusts itself. If the bedroom is filled with light, the brightness increases to keep the display readable. When the bedroom is dark the brightness dims so it doesn't light up your bedroom when you are trying to sleep

## Tap Snooze

A slight tap anywhere on the Wake-up light sets the snooze mode. After 9 minutes, the sound will gently start playing again.

## Proven by scientists

At this moment in time the Philips wake-up light is the only one scientifically proven to work. In order to make the Wake-up Light the best possible product it can be in genuinely waking you up naturally and energised we have done a lot of clinical research. This research was conducted by independent science facilities to study and prove the effects of the wake-up light on the overall wake-up experience. This way we have proven, among other things, that the Philips Wake-up Light not only wakes you more naturally, but also more energised and that it improves your mood in the morning.

## Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO2 emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas — Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.

# Specifications

## Easy to use

- Anti-slip rubber feet
- Snooze type: Smart snooze
- Display brightness control: Self-adjusting
- In-store demo function
- Number of alarm times: 2
- Snooze button for sound: 9 minute(s)
- Charges iPhone/iPod Touch: No
- Controlled by iPhone/iPod App: No

## Sound

- Digital FM radio
- Number of Wake-up Sounds: 5
- Play music from iPhone or iPod: No

## Well-being by light

- Increase alertness
- Drift to sleep naturally
- Wake up naturally
- Wake-up gradually

## Natural light

- Brightness settings: 20
- Coloured sunrise simulation: Yes. Red, to orange to yellow
- Light intensity: 300 Lux

- Sunrise simulating process: adjustable 20-40 minutes
- Sunset simulation

## Technical specifications

- Cord length: 150 cm
- Frequency: 50/60 Hz
- Insulation: Class III
- Insulation Power plug: Class II (double isolation)
- Power: 16.5 W
- Power Output Adapter: 12 W
- Type of lamps: Lumiled Luxeon Rebel
- Voltage: 100/240 V

## Weight and dimensions

- Country of origin: China
- Power Plug weight: 99 grams
- Product dimensions: 19.2 (height) x 19.9 (diameter) x 14.6 (depth) cm
- Product weight: 1.113 kg

## Safety and Regulations

- Not for general illumination: Not for general illumination
- To wake up with light: To wake up with light
- UV-free: UV-free
