Highlights

V-Track Precision Blades

The patented V-track Precision Blades gently position each hair in the best cutting position, even flat-lying hairs and hairs of different lengths. Cuts 30% closer in fewer strokes, leaving your skin in great condition.

Aquatec Wet and Dry

The Aquatec Wet and Dry seal of the electric shaver lets you choose how you prefer to shave. You can get a comfortable dry shave or a refreshing wet shave using a shaving gel or foam for extra skin comfort.

User Interface

The intuitive display shows relevant information, enabling you to get the best performance out of your shaver: - 3-level Battery Indicator - Cleaning Indicator - Battery Low Indicator - Replacement Head Indicator - Travel Lock Indicator

Contour Detect Technology

The new fully flexible 8X directional heads maximise facial adaptability, requiring less effort in every stroke. Their independent movements allow them to catch 20% more hair for a clean shave in fewer strokes.

SmartClean

At the touch of a button, SmartClean cleans, lubricates and charges your shaver, keeping it performing at its best, day in and day out.

50 minutes of cordless shaving

The advanced charging system gives you two convenient options: 50 minutes of running time after a single one-hour charge, or a 3-minute quick charge for one full shave. All Shaver series 9000 models are designed to operate only in cordless mode to ensure safety in wet environments.

Super Lift & Cut Action

The dual-blade system built into the Philips electric shaver lifts hairs to cut comfortably below skin level for a closer shave.

SmartClick Precision Trimmer

Precision trimmer for perfect moustache and sideburn trimming.
