PHILIPS

Hair clipper with Motorised Combs
Stainless steel blades 60 length settings, 120 mins cordless use/1 h charge

HC7460/15

Highlights

Control buttons

The intuitive user interface gives you precise feedback on the selected length. Use the buttons to easily select and lock in more than 60 length settings. Quickly browse through lengths or slowly go through each small step of 0.2 mm.

60 lock-in length settings

Use the Control Buttons to precisely select and lock in the length you want, with more than 60 length settings. Use the comb to trim with precisely 0.2 mm increments between 1 and 7 mm, and 1 mm between 7 and 42 mm. Or you can use it without the comb for a close 0.5 mm trim.

3 adjustable hair combs

The clipper comes with 3 adjustable hair combs: from 1 to 7 mm, 7 to 24 mm and 24 to 42 mm. Just attach one of the combs for more than 60 lock-in length settings, with precisely

0.2 mm increments between 1 and 7 mm, and 1 mm increments between 7 and 42 mm. Or you can use the clipper without the comb for a close 0.5 mm trim.

Stainless steel blades

Self-sharpening stainless steel blades for long-lasting sharpness.

Motorised Combs

The motor powered length-setting system easily selects and locks in the preferred length. The motor powers the comb and allows lengths to be selected with a precision of up to 0.2 mm. This innovative technology gives you the security to clip to the desired length and achieve consistent results time after time.

Auto Turbo

The Turbo feature automatically boosts the speed when reaching thick hair, ensuring a perfect, effortless cut.

DualCut Technology

Power through any hair type with our advanced DualCut Technology, which combines a double-sharpened cutting element with low-friction engineering. The innovative cutting element is designed to cut hair twice as fast as regular Philips clippers, with the added confidence of a robust steel guard for ultimate durability.

Remembers last length setting

The comb goes back to the last used cutting length setting when the clipper is turned on.

Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO2 emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas — Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.
