Highlights

Compact design

At only half the size*, this juicer takes up limited space. You can leave it on your kitchen counter top or store it easily.

Direct serve

This juicer allows you to use your own glass (max. height 12 cm). Place it directly under the integrated tap and you are ready to juice.

Make up to 1.5 l in one go

Thanks to the innovative QuickClean extraction system, you can make up to 1.5 l of juice in one go without needing to empty the pulp container.

QuickClean technology

The Philips juicer is designed for easy cleaning thanks to QuickClean technology. Cleaning can now be done within 1 minute, thanks to the QuickClean polished sieve, integrated pulp container and smooth surfaces.

QuickClean sieve

A lot of pulp fibres usually get stuck in the sieve, which makes it very difficult to clean. Thanks to the innovative QuickClean technology, all surfaces of the sieve are smooth, which helps you wipe away the fibres with a standard kitchen sponge.

Integrated pulp container

The pulp will all be collected in the only place where it should be: in the pulp container of

HR1832/01

your Philips juicer. That means you no longer need to remove pulp from other parts such as the lid. Due to the round design and smooth surfaces without nooks and crannies, the pulp is easy to reach and the container is much easier to clean.

Smooth and easy to clean

The juicer is designed with round shapes and smooth surfaces to facilitate easy rinsing under the tap.

See-through pulp container

Enjoy a true interactive juicing experience. The lid and the pulp container are transparent so you can see your fruits and vegetables being juiced. You also directly see when the container is full, which means it is time to empty it.
